P3 ENSO strip

P3 Tmax anomaly

P3 Season view

ENSO strip: months per year in each El Nino / La Nina / Neutral phase (recent months are provisional). Trend map: filled = significant trend ($p < 0.05$), open = not significant; colour = trend per decade. Season view: Warm days, single cold-snap days and the longest dry spell are not in the season table, so it is empty for Warm days. "Extreme" = beyond the station's own 95th/5th percentile for 1991-2020.
